

APO/FPO Shipments

WNL Safety Products has partnered with a company called ShipitAPO to send shipments to our customers with APO/FPO addresses.

If you would like to place an order with us and have it shipped to an APO/FPO address, please follow these instructions:

1. Go to [ShipitAPO](#) and register, and then return to our site. Once you have registered with ShipitAPO, you can continue shopping and place your order. If you've already added items to your shopping cart, they should be saved.
2. The address provided by ShipitAPO is the address you should enter as the Shipping Address on your order.
3. Choose Shipping Method "FedEx Ground" as your shipping method.
4. When your order is processed, WNL Safety Products will ship to the provided "Ship To" address and ShipitAPO will forward the product via the United States Postal Service to your APO/FPO address.

APO/FPO Shipping Charge:

Please note that in addition to any shipping charges charged by WNL Safety Products, ShipitAPO has its own charge for getting your order to your APO/FPO address. These additional fees include a minimum handling fee ([see the fee schedule here](#)), Priority Mail postage (determined by the USPS) and any optional insurance coverage. Both the postage and insurance are charged at published U.S. Postal Service rates.

APO/FPO Insurance: (Highly Recommended)

For APO/FPO Shipments, WNL Safety Products is not responsible for loss or damage to products during shipment. Therefore, we highly recommend that you insure each package for up to its full value (\$5000 is the maximum).

APO/FPO Delivery Time Frame:

Please note that APO/FPO deliveries can take up to 6-8 weeks. Package tracking may not be available to every APO/FPO address but ShipitAPO will provide a Delivery Confirmation number for each forwarded package as issued by the U.S. Postal Service.
